Notes:

- We also calibrate and provide replacement parts for Ambco Audiometers. The Current cost for an Ambco puretone audiometer calibration is \$80.00 plus actual return shipping costs, plus parts and labor if any repairs are needed.
- We try to keep our prices current, but if the manufacturer raises prices without notice, our prices would also have to increase because we sell audiometers and equipment at a low profit margin. We will notify you in a timely fashion if you order a product and our advertised price is no longer valid.
